Creating Excellence Through Experience.

Fordham Marble was founded in 1905 by Salvatore Sardo and has been operated by the same family for over 110 years. Our company has a proven reputation for superior workmanship and innovation.

Fordham introduced CNC stone processing to the United States. Our focus on craftsmanship and investments in technology result in a superior product crafted with care and attention to detail.

Our efforts have been recognized by the Marble Institute of America, national television and various publications. We take pride in our craft and quality. Our clients enjoy the results.

Fordham Marble Truly Cares and it Shows.

Visit our showroom for design assistance and inspiration for your next project.

We care about our clients and it shows in every granite and marble project we build.

Our company takes your satisfaction seriously. Visit our showroom and you will experience the love and care that goes into the design and details that are unique to every project.

Don't take our word for it. We will be happy to provide you with referrals!

Over a Century of Happy Customers!

I used Fordham for all of the marble in a kitchen & bathroom renovation. They have a beautiful showroom. I had a ton of questions and would sometimes change my mind, but they were always incredibly friendly and worked with me all the way through. Their installers were also perfect gentlemen and did a wonderful job.

– RITA G., STAMFORD, CT

I've worked with Fordham Marble for over twelve years, and they have my back. They have a combination of great fabrication expertise and a great showroom, whereas most companies like them only have one of those things. I know I can trust them with my clients, and in the unlikely event that anything goes wrong, they'll put a rush on my job to fix the problem. They're always the first company I turn to.

– JERRY W., STAMFORD, CT

Some places for tile and marble are messy and overwhelming, but not Fordham. Their showroom is beautiful and nicely laid out, and I love taking my clients there. They have a wide selection of both slabs and tile, and you can really get to like your options as opposed to simply choosing something. Their fabrication is also good, with very accurate templating. Fordham's costs are also very reasonable, not the cheapest, but competitively priced for the high level of quality they deliver.

– DAVID M., WILTON, CT
